

Florin Spătaru - Development Projects Coordinator – GRAMPET Group

Florin Marian Spătaru is a seasoned professional with extensive experience in corporate management, industry, and economic policy, with a particular focus on port infrastructure and logistics connectivity. He currently supports GRAMPET Group's leadership in shaping growth and investment strategies, helping to strengthen the group's position in the railway and port sectors in Romania and across Europe.

A former Minister of Economy with a proven track record in public administration, Florin Spătaru has been instrumental in modernizing Romanian industry through strategies for non-energy mineral resources and the defense sector, coordinating the Green Industrial Plan with the World Bank, and leading working groups on technological transition (CCUS, NZIA, automotive). He has represented Romania in the European COMPET forum and the GLOBAL GATEWAY initiative, actively contributing to European industrial policy development.

In the private sector, he brings over 25 years of experience in the naval and industrial sectors. He has held leadership and representative roles in organizations such as ANCONAV, SEA Europe, and OECD WP6, and has managed leading shipyards including Șantierul Naval Galați and Damen Shipyards Mangalia. He has overseen strategic projects in human resources, corporate affairs, and operational development — from implementing modern management systems to revitalizing professional training centers.

Florin Spătaru combines managerial expertise with deep knowledge of industrial and port policy, and is an active advocate for connectivity and strategic investment in Romania.
